

Dear Applicant,

Thank you for your interest in the programs offered by the Redevelopment Agency of Salt Lake City (RDA). The RDA provides an array of loan and tax increment reimbursement programs to assist property owners, business owners, and developers with new construction, building renovation, historic preservation, public improvements, and environmental remediation efforts. These programs support RDA's work to remove blight and promote private investment in specific areas of Salt Lake City.

The RDA program application is structured to make the loan process easy to navigate and understand. The application includes a loan guide that lists all requirements necessary to apply for a loan. We encourage applicants to work closely with the RDA staff during the loan process.

From addressing blight to re-establishing safe, clean, social spaces through public and private investments, the Redevelopment Agency works hard to elevate the quality of life for all city residents, businesses, and visitors through its many endeavors. Thank you for your interest in working with us to improve Utah's capital city.

Sincerely,

Luke Garrott
Chair, RDA Board of Directors

OF SALT LAKE CITY

HIGH PERFORMANCE BUILDING RENOVATION LOAN CRITERIA

Property owners or developers can receive financing at 0% interest for renovating buildings that achieve a LEED certification level or an ENERGY STAR rating, depending on the building type. The Redevelopment Agency (RDA) will lend up to 50% of associated hard costs of the improvements. All loans are subject to qualifications of the borrower(s) and availability of funds.

Eligible Properties:

1. All Redevelopment Project Areas are eligible except the North Temple Viaduct and Ball Park project areas.
2. Commercial, residential, or mixed-use properties located within a designated RDA Project Area.
3. Proposed construction must contribute to the RDA goals for the Project Area and conform to the neighborhood's master plan. RDA goals are available upon request.

Persons Eligible to Apply:

1. The applicant for a loan must be the title owner to the property.
2. Property taxes and special assessments must be current.
3. No judgments or liens are outstanding against the applicant(s).
4. Applicant's credit history shall demonstrate prompt payment of past obligations. Applicant shall have income adequate to repay the funds loaned.
5. The RDA shall not discriminate against any applicant for reimbursement on an unlawful basis.

LEED and Energy Star Certification and Interest Reduction:

Applicant must register or apply for a LEED certification ("Certified Level") or an Energy Star rating after loan approval and before commencement of the work. The interest rate is 3% until applicant has proven LEED certification or ENERGY STAR rating for improvements. After LEED certification or ENERGY STAR rating has been verified by the RDA, the loan shall be re-amortized at a 0% rate on the current balance for the remaining term.

Both programs are described in detail below:

1. LEED Certification (Certified Level): Applicant may choose to register their project under the USGBC designation of LEED-EB (Existing Building). Applicant must register project and prove project registration within 30 days of RDA loan application approval.
2. ENERGY STAR: Use of the ENERGY STAR rating system is only eligible for a reduced interested rate for residential projects.

Use of Loan Funds:

1. The RDA will lend a maximum of 50% of building renovation project costs. Approved uses of loan funds include:
 - Tenant improvements necessary to bring commercial space into a finished condition as required by an executed lease for a specific tenant
 - Restore the facades of buildings as closely as possible to their original appearance
 - Rehabilitate or convert upper floors of commercial buildings, which are vacant and unused or used as storage space, into a residential use
 - Bring major systems of the buildings or the building structure into compliance with current codes
 - Upgrade structural components for earthquake stresses

Use of Loan Funds (continued):

- Repair or replace HVAC, electrical, mechanical, and plumbing systems
- Meet ADA accessibility requirements
- Upgrade industrial or commercial equipment that controls odors, emissions, and noise
- Rehabilitate or convert warehouse buildings into a residential or mixed-use
- Site Improvements that enhance the appearance and function of the building

The RDA will consider owner's repairs/replacement, architectural and engineering costs, and actual construction costs as match for the loan. Once renovation is completed, the property owner/tenant is responsible for maintenance and upkeep.

2. The funds are not intended to be used for acquisition of land or soft costs including building permits, impact fees, surveys, appraisals, marketing fees, furnishings, refinancing of existing debt, luxury items, legal fees, insurance equipment, or bonds. Use of funds for environmental remediation or demolition will be considered on a case-by-case basis.

Terms of Loans:

1. The maximum amount of a loan from the RDA for one project shall be the lesser of one fifty percent (50%) of eligible hard costs or an amount, when combined with prior debt secured by the property, which is 95% or less of the post-construction appraised value of the property.
2. Loans shall be based on fixed price construction bids.
3. The loans shall be amortized for a maximum period of twenty (20) years but shall include a ten (10) year call, which may be exercised at the option of the RDA.
4. The interest rate shall be 3% until applicant has proven LEED certification or ENERGY STAR rating for improvements. After LEED certification or ENERGY STAR rating has been verified by the RDA, the loan shall be reamortized at a 0% rate on the current balance for the remaining term.
5. The default rate shall be 14%. Interest shall begin to accrue with the first draw of funds.
6. Loans shall have safeguards satisfactory to the RDA to assure repayment and meet the RDA's underwriting criteria.
7. Repayment:
 - Investment - The first payment shall be due at the beginning of the fourth (4th) month after receiving a Certificate of Occupancy.
 - Condominium – The RDA shall be paid an amount equal to ninety-five percent (95%) of the net sales proceeds for each unit.
8. The Borrower shall provide a personal guaranty to the RDA guarantying full and unconditional completion of the proposed improvements and repayment of loan.
9. The Net Operating Income (NOI) shall be at least 110% of the debt service for occupied buildings. Unoccupied buildings will be evaluated based upon the expected NOI after rehabilitation and the marketing plan (Debt Service Coverage Ratio of 1:1.10).
10. Loans may be prepaid in whole or in part at any time without penalty.
11. Loans made under this program shall be non-assumable and due in full on sale of the property.
12. Borrower is responsible for obtaining required City approvals and Building Permits.
13. Loan amount shall include a fee in an amount to cover legal and other expenses related to the RDA's origination, underwriting and loan documentation.
14. Borrower will be required to obtain a Performance and Payment Bond prior to the issuance of an Order to Proceed.
15. Closing costs associated with a loan shall be borne by the applicant including but not limited to the cost of title search and insurance, credit reports, attorney fees.
16. Once construction is complete, Borrower is responsible for maintenance and upkeep of the property as well as insurance.

Collateral:

All loans will be secured by the property under construction with a standard form RDA Trust Deed in either first or second position. Appraisals must be conducted in conformance with the adopted policy of the RDA. In addition, an “after rehabilitation” value shall be determined using an income appraisal to value adjusting rental income to reflect the improved marketability of the leased space after rehabilitation. In the case where there is no outstanding debt on the property and the current year Salt Lake County Assessed value is adequate to meet the RDA’s 80% loan-to-value ratio requirement, no commercial appraisal will be required. Other acceptable forms of collateral include:

- Standby Letter of Credit. Borrower provides a letter of credit from an approved financial institution. Prior written notice is required for any cancellation or non-renewal.
- Other Real Estate. Borrower provides the RDA with a first or second trust deed priority on property located in Salt Lake County.
- Pledge Account. Borrower enters into an agreement with the RDA to pledge an approved account for the term of the loan. The RDA would require written consent for all fund withdrawals. (Approved types of pledge accounts include: Certificates of deposit, savings accounts, Bonds).

Requirement of Shower and Locker Facilities:

In an effort to provide the Salt Lake City workforce more opportunities to bike to and from work, as well as exercise during the workday, the RDA is requiring the installation of shower and locker facilities in all RDA-funded new construction and renovation projects that do or will house 25 or more employees. The design of such shower and locker facilities shall be considered by the RDA’s Loan Committee for approval. Applicants who cannot provide such a facility as part of the project may request a waiver of this requirement for review by the RDA’s Loan Committee. Those requesting a waiver of this requirement must submit to the Loan Committee documentation to demonstrate why the shower and locker facilities are infeasible or unreasonable for this particular project. The Loan Committee shall approve or deny all such requests. If the Loan Committee does not approve the Applicant’s waiver request, the Applicant may appeal to the Board of Directors, which shall render a final decision.

The RDA will use the following formula to determine the number of showers loan applicants will be required to provide in RDA-funded renovation and new construction projects:

Calculation for Number of Showers:

$$(\text{Project Square Footage} \div 435) \times 0.005, [\text{ROUNDUP}]$$

FORMULA DEFINITIONS:

Project Square Footage = the square footage of usable newly constructed or renovated building area

435: A standard of measure of square footage occupied by each full time employee (per the International Facility Management Association)

0.005: A standard percentage measure applied to square footage to determine the number of shower facilities needed, per LEED standard.

[ROUNDUP]: Any calculation resulting in a fraction shall be rounded up to the next whole number.

Calculation for Number of Lockers:

For each locker, four half-sized lockers shall be provided

Additional Program Policies:

The High Performance Building Renovation Loan Program may not be used by owner(s) or developers(s) who have obtained a tax increment reimbursement for the same project under the RDA’s Tax Increment Reimbursement Program.

Exceptions to Loan Criteria:

The Board of Directors, by a majority vote of those present, provided that a quorum is present, may waive requirements or make exceptions to the foregoing criteria and procedures with a finding that the goals of this program will be furthered by such waiver or exception. RDA staff will prepare a written statement regarding the waiver or exception and shall place the original statement and a copy of the minutes of the Board of Directors in the loan file.

RDA Acknowledgment Guide:

Pending RDA approval, and per the RDA Logo Usage Guide and RDA Acknowledgment Guide, applicants will be required to include the RDA logo and name, and acknowledge the RDA’s contributions or assistance to the project in all printed materials describing the project including but not limited to: 1) brochures, flyers, printed materials and signage; 2) interviews with press organizations; 3) descriptions of the project in newspapers, mass emails, advertisements, and case studies; 4) on websites owned by Applicant or Applicant’s business, in which the project is discussed or described

Loan Document Confidentiality:

While private information will be protected to the greatest extent possible under the law, any documents or records submitted to the RDA may be subject to disclosure pursuant to the Governmental Records Access and Management Act, U.C.A. §63-2-101. If the Applicant believes the information provided to RDA constitutes trade secrets or confidential commercial information, please provide a written claim of business confidentiality and a concise statement of the reasons supporting the claim of business confidentiality in letter form.
